Marketing & Communications

Matt Sheley has been named senior manager for Global Customer Experience. He originally started at Cook in 2010 as the global brand marketing manager for the legacy Peripheral Intervention (PI) business unit. He left Cook in 2010, but returned in 2016 to build a market development team supporting PI. Most recently, Matt has been leading the Vascular Brand Impact team.

APAC Events

Kimberlee Calvert has been named regional manager for Events Management in APAC. She started at Cook in 2014 as part of the Travel and Events team. In February 2020, she became the team lead for the Australian events team.

Madison Hando has been named an events specialist for APAC. She started her career at Cook Medical as an intern on the Travel & Events team in February 2014. Later that year, she moved into a full-time role as a Travel & Events coordinator.

Global Reimbursement

Jens Johannesen has been named the leader for the Global Reimbursement function. Jens joined William Cook Europe's reimbursement team in 2005 and for the past four years has served in the role of global director.

Indirect Market Management (IMM)

Aleksander Ciesielski has been named the business manager for IMM in EMEA. He started with Cook in 2009 as a regional manager for Urology. After several years, Alex was promoted to EMEA channel manager for distribution. Since 2018, Alex has led all of the channel management for what was formerly called Distribution Channel Management (DCM) in the EMEA region.

Neil Whisson has been named the business director for IMM in APAC. He joined Cook in 2001 as a territory manager in Queensland, Australia. He was promoted to national sales manager for PI and later moved into the Sales and Marketing manager position for Interventional Radiology (IR). Most recently, Neil served as the Southeast Asia-Pacific director of business for Vascular.

Cesar Lopez has been named the business manager for IMM in Latin America (LAM). He joined Cook in 2008 as an intern and later transitioned to a full-time role within PI, focusing on Latin America. He was then promoted to a Sales and Market manager for LAM. In 2018, he was named Vascular's Distribution Sales and Support manager for LAM.

Emma Heuston has been named Global Operations director for IMM. She joined Cook in 2010 as the EMEA marketing manager. She has held several marketing roles, with her most recent in 2014 being director of Global Strategic Marketing.

MedSurg

Lorenzo F. Domínguez has been named the regional manager for Critical Care in Spain, Italy, France, and Belgium. He joined Cook in 2006 as a sales representative for the Urology specialty in Spain. Later, he served as a corporate account manager in Spain and Italy for Urology. Most recently, he has served as a MedSurg country commercial business manager in Spain.

Giuseppe Frassica has been named manager for EMEA Sales for the Urology specialty. He started his Cook career in 2003 as a district manager for Urology. Since 2008, he has served as the regional manager, covering Spain and Italy, while also serving as the distribution manager for Portugal.

Meurisse Leahy has been named Global Product Management director. She joined Cook in 2005 as an assistant product manager and later became a product manager. Most recently, she has served as senior product manager, leading Endoscopy's European-based product management team.

Divisional Systems & Quality

Samantha Sanders has been named a project manager for Divisional Systems & Quality. She started at Cook in 2019 first as a contractor, and then worked in the QAC Lab as a senior microbiologist.

MedSurg Research & Development (R&D)

Shaun Gittard has been named the manager, for Global R&D for MedSurg. He began his Cook career in 2011 as an R&D engineer at Cook Winston-Salem. Most recently, he served as an R&D team leader for engineers located in Winston-Salem and Ireland.

Criostoir O'Bhealtun has been named a senior R&D engineer for MedSurg. He joined Cook in 2014 as an R&D engineer, holding roles within the MedSurg design group.
