

PEOPLE NEWS

Cook Ventures

Rob Lyles has been named president of Cook Ventures LLC. He has been with Cook for 18 years and has been involved in creating companies and new business lines for the company. He helped give shape to the vision for Cook Ventures and will lead the new organization.

Brad King has been named senior director of Cook Ventures LLC. He joined Cook in 2012 and has served as the director of Corporate Development in the New Ventures group at Cook Medical since 2020. From 2014-2020, he served as a close collaborator and leader at Cook Regentec. He was also a key architect of the successful spin-out of Sexton Biotechnologies from Cook Regentec. He then served on its board of directors, and subsequently helped structure the deal that led to its acquisition in September of last year by BioLife Solutions, Inc.

Corporate Operations

Derek Voskuil has been named senior vice president and chief operating officer for Cook Medical. He began his career at Cook in 1997 when he joined the QA department, helping to prepare the organization for ISO certification. Since then, he's held numerous leadership roles, including being the first Manufacturing Operations manager at CINC and general manager at Cook Urological Incorporated in Spencer. Most recently, Derek served as general manager for Cook Inc. and was named vice president of QA & Corporate Operations for Cook Medical in 2020.

Ethics & Compliance (E&C)

Drew Northern has been named chief E&C officer for Cook Group and chief integrity, social impact, and sustainability officer for Cook Medical. He has been with Cook since 2017. He served as director for Anti-Corruption, focusing on anti-bribery, anti-money laundering, and human rights.

Heather Hurst has been named vice president, chief E&C officer for Cook Medical. She joined Cook Group in 2012 as an E&C training specialist. She later transitioned to the role of manager, and more recently, director of Global E&C

Operations.

Megan Charlesworth has been named senior director, chief Privacy officer for Cook Group and Cook Medical. She joined the Cook Group patent office as a patent searcher in 1999, applying her background in architectural engineering and technical writing to support the R&D and patent office teams. In 2002, she joined Carol Seaman and assisted with the creation and implementation of Cook's E&C program.

Kristin Stone has been named director of Data Privacy for Cook Group and Cook Medical. She joined the Data Privacy team in 2016 with years of experience in compliance and information security. Since joining Cook, Kristin has assisted with formalizing Cook's global data privacy framework through process improvements. She played a key role in developing the Cook Group Security Standards, creating a mapping table of external applicable standards, and continues to work with the Cook Group Security Standards Ops Team to propose new controls.

MedSurg

Casper Herdahl has been named global Product Marketing manager. He started at Cook in 2012 as a regional marketing manager for Venous and Embolic Therapies in EMEA. In 2015, he moved into a global marketing manager role and supported the Embolic team. Most recently, Casper was a global market outlook manager in Vascular.

Jo Ng has joined Cook as manager of Marketing in APAC for Urology. She came to Cook with over 10 years of experience in the pharmaceutical and medical device industries. She previously worked as an associate product manager at Medtronic.

Tim Tang has joined Cook as the manager of Product Marketing for Critical Care in APAC. He has over 10 years of experience and has worked for multinational companies in the medical device industry in sales management and product specialist roles in Asia.

Global Manufacturing Engineering

DJ McDaniel has been named director

of Global Manufacturing Engineering. He holds a doctorate in chemical engineering from the University of Texas at Austin, and served as an Army officer in Operation Iraqi Freedom. Before joining Cook in 2016, DJ held several key engineering roles in the microelectronics and semiconductor industry. In 2019, DJ became Engineering manager and then senior manager in 2021.

Taylor McGregor has been named manager of Manufacturing Engineering for CINC. She joined Cook in 2015 as a member of the Hydrophilic Coating team in Ellettsville. She then moved to the CI team at Park 48, leading several efforts to increase efficiency and product flow in Flexors, Standard Sheaths, and Drainage Catheters.

Marketing & Communications

Samantha Fulk has been named team lead for Creative Project Management. She started at Cook in 2012 as a graphic designer in the AI legacy business unit. After working as a designer, Samantha supported AI's digital efforts by leading its data management and digital asset creation. Before the Marketing teams came together as one function, she was the global marketing materials project manager for Vascular. Most recently, Samantha was a creative project manager within the agency.

Junya Morinaga has joined Cook as Product Marketing manager for Japan. He has more than 25 years of experience and marketing knowledge in international pharmaceutical business. He previously worked for companies such as GlaxoSmithKline and Novartis.

Emily Cooper has been named manager, Digital Asset Management librarian. She started at Cook in 2008 as a taxonomist and analytics specialist. Most recently, she served as a product manager in IT.

Reuben Lidster has been named Marketing Claims manager. He joined Cook five years ago as a regulatory specialist. He worked on both US and
